Robert Simmons

Creative, detailed-oriented, software engineer with a deep interest in VR. Proven track record of creating and implementing successful full stack web applications. Looking to bring my skills to a tech company with global reach.

PROFESSIONAL EXPERIENCE

Software Engineer at 100Dev's, Remote

January 2023 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Worked with back-end development team to implement RESTful APIs using Node.js, Express, and MongoDB
- Worked with UX/UI team to implement user interfaces using React, Tailwind CSS, and Bootstrap

Full Stack Web Developer | Freelancer

September 2022 — Present

- Created full stack web applications and static websites for different clients across small and medium size businesses.
- Also, consulted on SEO and social media strategy
- Designed and developed scalable and responsive web applications across a range of devices and platforms

Logistics & Operations Coordinator at Lightspeed, San Diego, CA

April 2015 – August 2022

- Manage over 300 product orders and shipments daily
- Research, troubleshoot, and solve issues related to inventory shortages, E.D.I errors, pricing discrepancies
- Responsible for the timely submission of all required reports for compliance and auditing purposes
